## Greetings/Saludos

### Welcome!

We want to extend a warm welcome to all our returning families and a special greeting to those joining us for the first time. We are thrilled to have your children as part of our diverse and vibrant school community.

### ¡Bienvenidos!

Queremos extenderles una calurosa bienvenida a todas las familias que regresan en especial a las que ingresan por primera vez. us for the first time. Nos emociona tener a sus hijos como parte de nuestra diversa y vibrante comunidad..

## Ideas for Families from K to 5th Ideas para Familias de K al 5to

### HOME LANGUAGE(S)

Encourage your child to use their home language(s).

- Share family stories orally
- Read books together
- Create art or crafts
- Discuss events, stories, movies, or games

### IDIOMAS DEL HOGAR

Motive a su hijo a usar sus idiomas.

- Comparta historias de familia oralmente.
- Lean juntos
- Crean arte y manualidades
- Hablen de eventos, historias películas o juegos.

Rich cultural and linguistic interactions can bolster children's sense of themselves and their primary language skills. Children can master a language and academic learning when their primary language and culture are stronger.

Las ricas interacciones culturales y lingüísticas pueden reforzar el sentido que los niños tienen de sí mismos y sus habilidades lingüísticas primarias. Los niños pueden dominar un idioma y aprender académicamente cuando su idioma y cultura primarios son más fuertes.

### \*Reminders\*

2022-2023 ELL Families will be receiving their student's ACCESS for Ells score in the mail. The score measured your child's academic English skills in listening, reading, speaking, and writing.

2022-2023 Las familias ELL recibirán por correo la puntuación de ACCESS for Ells de sus estudiantes. La puntuación midió las habilidades académicas de inglés de su hijo en comprensión auditiva, lectura, expresión oral y escritura.

# Message from Nurse Drogosz

## Common Illness & School Attendance Reminder

Students are expected to attend school every day. However, illnesses can be lengthy and sometimes difficult deciding whether or not to send your child to school. The following information may be helpful in making your decision. Please be sure and provide your current phone number and the available emergency contact information. **If your child is going to be absent, please call our attendance line. You must leave your child's name, the reason for the absence, the date of the absence and your name to verify that it was a parent/guardian that is verifying the absence.**

### Fever:

Any temperature greater than 100 degrees F is considered a fever. Child must be fever free for 24 hours without using fever-reducing medications (such as Tylenol, Motrin, Advil, etc.) in order to return to school. This applies even if the underlying cause of the fever is non-infectious, such as middle ear infections, bronchitis, urinary tract infections, etc. Children with a fever do not usually feel well enough to participate and attend school activities. It is recommended that they be given 24 hours to recover from the fever before returning to school. Please note that a child who exhibits symptoms of illness without a fever may be sent home if the nurse feels this is best interest of the child or the child's classmates (with compromised immune systems).

### Colds:

Children with an upper respiratory infection without a fever may attend school if they feel well enough to do so. It is helpful in preventing the spread of illness if children learn to use tissues to cover sneezes and coughs, and wash hands after contact with the secretions.

### Infections:

Any child who has been on antibiotic therapy for 24 hours is no longer considered infectious and may return to school. This includes infections of the eye, nose, skin and strep infections. (Exception is pink eye, not all doctors treat this, so the doctor or nurse will decide if exclusion is necessary to protect others from being contaminated).

**Diarrhea:**

Children with diarrhea should remain home until they are symptom free for 24 hours. The only exception is if diarrhea is the result of a chronic condition, then a note from the doctor is needed indicating the diarrhea is not infectious.

**Vomiting**

A child who has vomited the evening before or in the morning before school should remain home for the day.

**Rash:**

If your child has a rash all over his body (bright red, raised, or itchy) or a rash in one or more areas that is draining fluid. The nurse will determine the next action to be taken.

**Common Childhood Diseases**

If a child has chicken pox, measles, or any other known treatable contagious disease, they must be kept home until they are no longer contagious. For most common childhood diseases, the period of contagion is known. .

Thank you,

Norene Drogosz
